

Notes

in. pre movie, i'm one beer

we're here for a rawe
lots of "artistic" filters over footage
of the game.

This intro music, could they
only afford the prequel version
of the Prequel.

love quadrangle before we even start.

Screen shot at
3:00

A D R: the movie.

ISLAND EATS!

How does rainy day
beer know about the Zombies?

that lady either has an infini-beer
or is in real need of a bin

why would the
Zombie carry him away
rather than eat him
where he is?

14:22 - literally this is the house of the dead, kind of anti climactic

in the game, the house is a mansion

// cut in with "woah! what a mansion" from Resident Evil

in the movie its a two up two down terror house.

So they waited for her to show up before starting to munch Matt? That aint like any movie zombie I know of.

Also, do they have LEDs for eyes?

These folks have been on the island making loads of noise for hours, why are the zoms only attacking now?

The audio levels in this movie are all over the place.

Do they have to pass American Ninja before they can get to the zone?

Ball keeps showing game footage in when the movie gets boring.

How LONG DID IT TAKE THEM TO WALK ACROSS THAT ISLAND!?

Are they seriously trying to make the best of it? I'd be like, "what the hell is everyone? And why is the place trashed?"

The zombies can run? Oh yay!

Seriously, they are decaying dead people. Biger marks would stop them from running.

Then again, I'm arguing for logic in an Ove Boll movie.

fucking sound levels in this fucking movie!!

Scooby Doc?! what is this a kids movie?

How did captain wong see the axe wielding guy THROUGH the wooden door?!

One guy looks like Ethan Hawke and red shirt is meant to be David Boreanis (Angel from Buffy)

Romero reference with Ethan Hawke talking about the "three good" of the "Dead" movies.

HOLD THE NOKIA 3310! (frisky reference)
THE ZOMBIES CAN SWIM NOW?!

NOT ONLY THAT THEY CAN DO
WIDE WORK TOO!?

The lady in the Stars and Stripes one piece
is called Liberty?!
FOR FUCK'S SAKE!

→ And not-Ethan-Hawke (aka zombie
movie expert) dies when she touches
Cynthia him.
She doesn't make a move to
murder him either.

← Cooper
Is the coast guard persons team called
'McCoopers'?!
SERIOUSLY?!

were 30 minutes into this
90 minute movie

SERIOUS! THEY CAN FUCKING SWIM!
AND THEY NEED TO HOLD THEIR
BREATH WHEN DOING IT.

ARE THEY DEAD
OR AREN'T THEY?

Kirk seems pretty good at killing zomb.

That was clearly not the actor playing Simon running along the jetty.

38 minutes in, and I'm on my 3rd bar. It's the only way to deal with this noise.

The zombie face makeup (if you can call it that) are clearly halloween store face masks that don't fit.

WAIT! KIRK HAS A SNIPER RIFLE WHICH IS ALSO A MACHINE GUN? IS THAT POSSIBLE?!

↑
I know nothing about guns

THE ZOMBIES CAN SPIT ACID NOW?!

IT'S LESS HOUSE OF THE DEAD AND MORE BARRY MADE ISLAND OF THE DEAD

63 minutes in and we're at ~~but~~ exposition time

and it's the fault of the Spanish and Science are to blame, apparently.

That's it, run blindly through the forest.
That oughtta work out fine

Gregg gets surrounded by wine work zombies
and his go to move was to duck. I'd have
busted out my dance moves and Thrilla'd
my way out of it

Simon's hair changes several times throughout
the movie.

← were talking Scott in the first
Evil Dead levels of hair cut changes

The scene of them walking slowly toward the
house, goes a-bloody, makes me want to
see a movie where they do something similar, but
don't hit a god damn. They are waste all their
ammo.

if the matrix hadn't have been
made that scene with them walking
toward the house in a blaze of glory
would have been made.

it is all About the
Matrix style bullet fire shots

There's one zombie (after the Matrix style bullet
line with the shotgun) who isn't even zombified.
I'm calling him hipster lumberjack shirt with an
axe guy.

56:00 screenshot for show notes

58:46 Hot D 2 footage? Show Squid
when we are recording. He'll know
Nope Hot D 3 (2002)

Seriously, this whole scene is both
padding for time and a "I've seen the
Matrix"
- which came out in 1999
6 YEARS BEFORE THIS movie

59:43 ends) that's almost
51:07 starts) 10 minutes of zombie
shooting bang-bang action
all at once.

1 hr 45 seconds and they're in the house
proper. 2:36 in the original game.

10 minutes of shooting bang-bang in the
original game gets you to the halfway
point.
The Mangled Man boss - looks
like a bat.

Type Old
↗

The Spring zones are carrying the
dead-dead zoms away? why?

"Check out this book," the one with blank pages? 1:00:06.

one which is suddenly not blank 6 minutes later?

01:06:43

How many zombie movies do i have to watch where one of the potential suspects ruins it all for the rest by assuming that the clerk dead friend or family member is neither dead nor a zombie?

Yeah, i know that its a trope. But its bloody annoying.

That was a clear headshot on Salish, but he still gets back up.

Screen shot at 01:11:01

The catacombs bit should have been how they made the movie. Combine that with the way they made Hardcore Henry and you have a hit movie on your hands.

01:16:30 - Zomo: the zombie hunter appears

i would watch THE FOCK OUT OF THAT SHOW

"You created it all so that you could be immortal, why?"
"to live for ever."

1:17:57.

i mean... I can't add anything to that

The final showdown at 1:20:00 ish.

i am so over this budget Matrix bullshit

I'll bet that it was Julie Bell who personally applied the sword wound makeup to

Ona Grauer

played Alicia.

Wade was checking her inner ear for her pulse.

01:23:03

AMS chopper moments after

Bet you didn't realize this was a prequel, sucka

"G and I are proceeding inside"

Last lines of the movie.

"What's your name?"

"Rudolph."

"Got a last name?"

"Curran."

Mother fucker! We've been watching a prequel to the 1st game this entire time.

Fun fact: Oua Graves (played Alicia) also played Katya in Archer.

The website mentioned at the end of the credits "house of the dead.com" looks to have been clickjacked and is no longer owned by Bolt's production company.

> "House of the dead" is an ugly, endless, morose waste of film stock

Says it all, really.
